

Ailanthus triphysa (White Bean)

Tall tree with a straight trunk with grey bark, resembling sandpaper. Fast-growing and hardy with a spreading, leafy crown. Creamy-green flowers in November to January. Pioneer tree. Foliage gives a feathery appearance. Fruit is a brownish, dry winged samara to 5cm long and usually in a cluster of three, ripe in March to April.

Type: Tree to 15+m
Aspect: Full Sun/Part Shade
Soil: Well-drained
Habitat: Adaptable

Special features:

- Attracts –
 - Birds
 - Butterflies
- Bush Medicine
