

Corymbia intermedia (Pink Bloodwood)

Tree with chunky-greyish bark, growing in a variety of conditions and soil types. Alternate leaves, dark green above and much paler below. Flowering occurs from December to March and the profuse perfumed white or cream flowers are up to 2 cm in diameter. Seven flowerheads make up an inflorescence. Flowers are followed by the development of the urn-shaped gumnuts which are 1.2–2 cm.

Type: Tree to 15+m
Aspect: Full Sun/Part Shade
Soil: Well-drained
Habitat: Dry/Wet Sclerophyll

Special features:

- Attracts –
 - Bees
 - Birds
 - Gliders
 - Koalas
- Bush Tucker
- Salt Tolerant
- Timber Tree
