

# Eucalyptus microcorys (Tallowwood)

Handsome fast growing shade tree to 35m on fertile slopes and in gullies. Fibrous orangey bark, often with small distinctive 'blisters'. Dark green leaves, 14cm x 3.5cm, paler below. White flowers in winter to spring. Yellow-brown timber is very hard, durable, but easy to work. Used for dance floors and sills. Favoured koala food tree.

**Type:** Tree to 15+m  
**Aspect:** Full sun  
**Soil:** Adaptable  
**Habitat:** Dry and Moist Open Forest
