Eucalyptus phoenicea (Scarlet Gum)

Small tree with a slender trunk. Bark is yellow to yellow-brown, flecked, flaky and fibrous on the trunk, smooth and white or cream on upper branches. The adult leaves are lance-shaped with a long thin point, grey-green, 8-12cm x 1.2-2cm and have a flattened stalk. The beautiful bright orange flowers are borne in unusual spherical heads of 12 to 20 flowers. Flowering extends over a long period.

Type: Tree to 12m
Aspect: Full Sun/Shade
Soil: Adaptable
Habitat: Dry Sclerophyll

Special features:
- Attracts –
  - Bees
  - Birds
- Bush Tucker Tree
- Drought Tolerant
- Fragrant Foliage
