

Melaleuca lanceolata (Black Paperbark)

Either a bushy shrub 2 - 4m tall, often much wider than tall, or an irregularly branched tree, 5 – 10m in height. Relatively fast growing. The wood is dense, dark brown, durable in the ground making it suitable for round fencing and is a good fuelwood.

Type:	Shrub/Small Tree to 5m
Aspect:	Full Sun
Soil:	Adaptable
Habitat:	Dry Sclerophyll

Special features:

- Attracts –
 - Bees
 - Birds
- Frost Tolerant
- Moderately Drought Tolerant
- Salt Tolerant
- Timber Tree
- Windbreak
