

MYSTERIOUS MAMMALS OF THE FOREST

5-7pm **WEDNESDAY** 17th April 2019

Presenter - Dr Scott Burnett

University of the Sunshine Coast

Dr Scott Burnett's research focuses on the distribution and environmental needs of vertebrate wildlife in Australia and southern Asia. He has ongoing field programs in the Sunshine Coast Area, Wet Tropics region of far northern Australia, and Nepal where he studies and documents the ecology and conservation status of marsupials and owls.

****Note: Wednesday night workshop****

Workshop overview

Know much about the greater gliders, quolls and other mysterious mammals of Noosa and the Sunshine Coast districts? Come along and listen to vertebrate fauna expert, Dr Scott Burnett, lecturer at the University of the Sunshine Coast, share his knowledge and enthusiasm about these furry creatures!
