

## Planchonella queenslandica (Blush Condoo)

Impressive rainforest tree with leaves crowded towards the end of the branches. Leaves are alternately arranged on the stem, without serrated edges. They are oval elliptic or oblong elliptic in shape, 9 to 20 cm long, and 3 to 6 cm wide. Shiny green above, more yellow-green underneath, the leaves are somewhat leathery to touch. Caramel scented, cream flowers in May to November. The fruit is a black berry 2cm long in August to December.

**Type:** Tree to 15+m  
**Aspect:** Full Sun/Part Shade  
**Soil:** Well-drained  
**Habitat:** Dry/Wet Sclerophyll
