

## Tabernaemontana pandancaqui (Banana Bush)

Attractive semi-deciduous bush, leaves have milky sap, pretty, sweetly-scented white flowers in spring to summer, and fascinating but inedible toxic orange-yellow, banana-shaped fruit. Good plant for shady areas of the garden. Can be pruned.

**Type:** Shrub to 2m  
**Aspect:** Full Sun/Shade  
**Soil:** Moist  
**Habitat:** Dry Sclerophyll
