

Free Dung Beetle Workshop Wednesday 14th July 2021 9.00 am to 12.30 pm

Gympie & District Landcare group have partnered with Colere Growing Solutions, to bring you a half day workshop focused on raising dung beetle awareness.

Join Dung beetle expert Russ Barrow and learn how to trap and ID your beetles, as well as setting up and maintaining your very own beetle farming nursery.

Dung beetles can:

- Sequester carbon in the soil
- Improve soil and pasture health and productivity
- Aerate soil & interrupt parasite life cycles
- Reduce nutrient run-off into waterways
- Great solution to bush fly management

BOOKINGS ARE ESSENTIAL AS SPACES ARE LIMITED!
